

To Whom It May Concern

Statement

Regarding the product Coronavirus(2019-nCoV)-Antigentest- produced by Beijing Hotgen Biotech Co., Ltd., the following statement are especially made:

Coronavirus(2019-nCoV)-Antigentest- by our company detects N protein of SARS-CoV-2 in human anterior nasal swab samples. While the mutation of the virus found in England (B.1.1.7 strain), SouthAfrica (B.1.351 strain, Omicron variant (B.1.1.529 strain, BA.2 strain, BA.4 strain, BA.5 strain)),Brazil (P.1 strain) , India (B.1.617 strain, Delta variant B.1.617.2) and XE variant are mainly on S protein. So our product is still effective to detect the antigen of novel coronavirus and the mutation will not affect the detection result of our product.
